

ROUND 05

Fish & Ships – Appendix

This page is provided for you to be able to solve this example puzzle using the cut pieces, just as it will be in the competition puzzle as well.

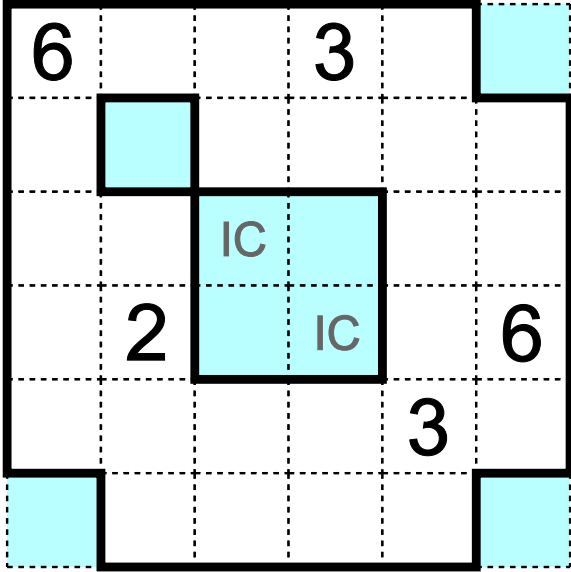

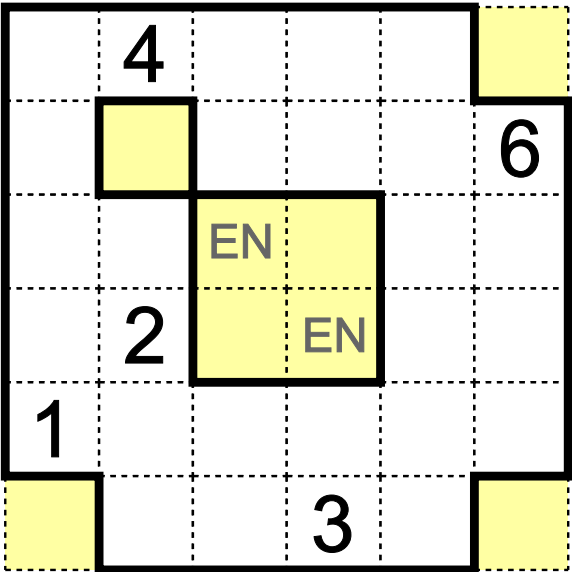

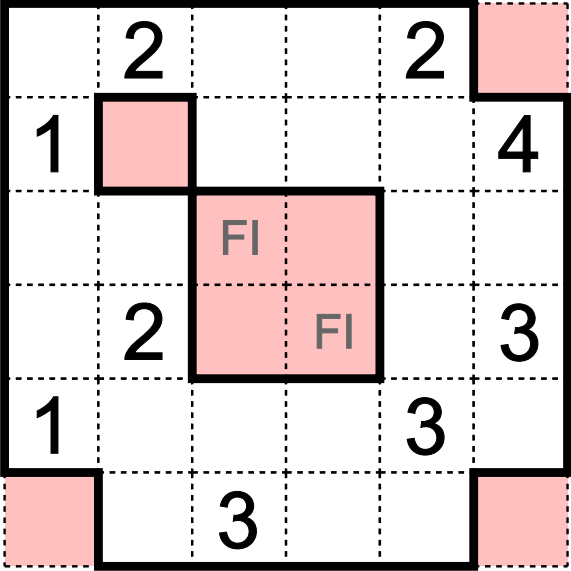

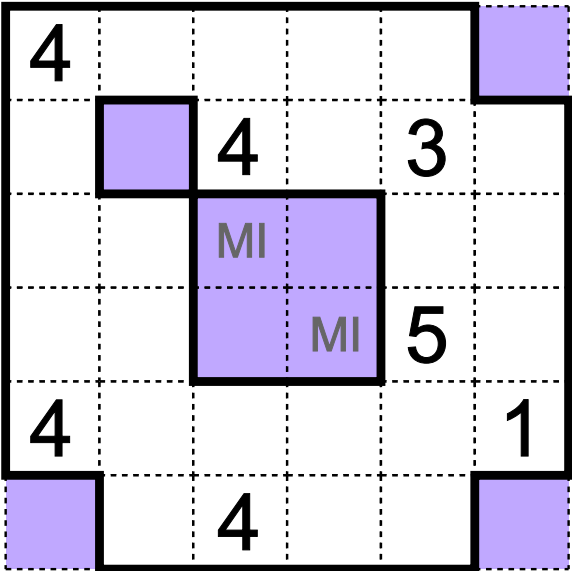

The grey dots around the shapes are not part of the puzzle and should be removed during the cutting process. They are provided only to help the cutting – this way it will be very obvious if an extra cell still needs to be cut!

Here is an example to demonstrate how the round is constructed. Feel free to print / cut the pieces and give it a try!
